PROFESSIONAL SUMMARY

I am Proshanto Das, a WordPress Developer and PHP specialist with over 3 years of professional experience and 300+ successfully completed projects. I have strong expertise in developing custom WordPress solutions, including theme and plugin development, complex bug fixing, and performance optimization for speed and security.

I am experienced in building and customizing WooCommerce stores as well as developing complete eLearning and LMS platforms. My focus is on writing clean, maintainable code, creating fully responsive designs, and delivering scalable, high-performance websites.

I am committed to delivering reliable solutions that align with client requirements and business goals.

WORK EXPERIENCE

WordPress Designer 2024-2025

Pixels Digital

Worked at a digital agency as a WordPress Designer, creating mobilefriendly and visually appealing websites. Converted Figma designs into fully functional WordPress sites using Elementor. Ensured pixel-perfect, responsive layouts with a strong focus on user experience and modern aesthetics. Delivered high-quality, customized websites tailored to client requirements

WordPress Developer 2025-2026

Metaanova

Worked at Metaanova, a digital agency, as a WordPress Developer, focusing on building functional and scalable WordPress solutions. Specialized in developing and customizing LMS (Learning Management System) websites and WooCommerce-based eCommerce platforms with advanced features and integrations. Implemented custom WordPress functionalities, optimized website performance, and ensured secure and efficient user experiences. Delivered high-quality, reliable solutions tailored to meet client requirements and business goals.
